National Professional Qualification for Leading Behaviour and Culture

The National Professional Qualifications (NPQs) are a group of widely recognised professional qualifications designed to meet the needs of education leaders in England. NPQs provide extensive training and support for current and aspiring leaders at all levels.

The NPQ for Middle Leadership has been replaced with four new specialist qualifications: NPQ for Leading Teacher Development (NPQLTD), NPQ for Leading Behaviour and Culture (NPQLBC), NPQ for Leading Teaching (NPQLT) and now the brand-new NPQ for Leading Literacy (NPQLL), designed for teachers who want to broaden and deepen their expertise in specialist areas within educational settings.

Designed in partnership with schools and expert organisations

The National Professional Qualification for Leading Behaviour and Culture (NPQLBC) is designed for teachers who have, or aspire to have, responsibilities for leading behaviour and supporting pupil wellbeing in their school.

Individuals working in this type of role face multiple challenges and may manage a team of class teachers or tutors, as well as focussing on effective behaviour management and nurturing a culture of high expectations and learning within a school.

They need to have expertise across several specialist areas and have a thorough understanding of the pupils and colleagues they work with.

The course curriculum ensures individuals can understand the relationship between all aspects of their role, how it can evolve and change over time and how to create and maintain an environment in which staff and pupils can thrive. This programme is designed in partnership with schools and expert organisations, ensuring all content is up-to-date, relevant and immediately applicable for all participants.

All our specialist qualifications use a common methodology to develop and nurture your existing expertise and capabilities.

Each of our NPQ programmes includes:

- » **An introduction and diagnostic assessment** to scaffold and frame your learning, identify gaps in your knowledge and help you target the areas most relevant to your development.
- » **Tutor sessions, led by a Local Lead Trainer** which will provide you with individual feedback and support.
- » **Lots of online evidence and examples** to introduce you to key ideas and demonstrate how you could implement these concepts in your own context.
- » **Regular micro implementation tasks** to reinforce the overall approach to managing improvement and prepare you for the summative assessment.
- » **Face-to-face and live online training** where together with your peers you'll learn through expert-led dialogue, collaborative activities, and structured practice of new techniques.
- » **Embedded formative assessment activities** to check your understanding and confidence, signpost you towards further learning and provide feedback that's individual to you.

The course curriculum ensures individuals can understand the relationship between all aspects of their role, how it can evolve and change over time and how to create and maintain an environment in which staff and pupils can thrive.

Leading improvement in Behaviour and Culture

All our NPQs begin with an introduction to our approach to capacity development and managing improvement through implementation. This approach is then embedded throughout the duration of the programme.

You will focus on developing mastery of relevant expertise, gaining the knowledge and tools to develop others, and extending your influence across a school, phase or department.
