

Has your school recruited
an Early Career Teacher?

Sign Up Process

Follow our easy sign-up process below to get ahead and be ready for September 2022

1

Register your Early Career Teacher with the DfE

If the school has yet to have an ECT, the Head of School or Induction Tutor registers the school [here](#), or by scanning the QR code.

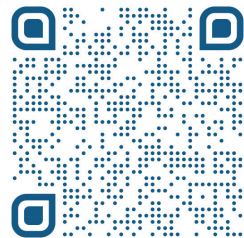

Once the Induction Tutor receives an email from the DfE with sign in details to its 'Manage training for ECTs', they can then input mentor and ECT details.

Schools will need each participants' TRN and DOB to complete registration.

Once complete, the DfE performs validation checks and passes on details to the Lead Provider, Education Development Trust who will then liaise with HISP Teaching School Hub as its delivery partner.

Department
for Education

2

Register for the Full Induction Programme

If you have yet to have an ECT in your school, you need to register your interest with Educational Development Trust as the ECF Lead Provider HISP Teaching School works with before registering your ECT with the DfE. Register your interest [here](#), or scan the QR code:

If you are already working with HISP Teaching School Hub and Educational Development, the DfE will forward details of new ECTs to Educational Development Trust once you have completed registration of new and transferring ECTs on its 'Manage training for ECTs' webpage.

3

Register your Early Career Teacher with the Appropriate Body

All ECTs must be registered with an Appropriate Body for their statutory induction.

HISP Teaching School Hub is an Appropriate Body. Register your ECT with us [here](#), or by scanning the QR code:
