## Has your school recruited an Early Career Teacher to start in April 2024?

All ECTs must be signed up for an Induction Assessment Programme as well as an ECF Training Programme. Follow our easy sign-up process to be ready to welcome your ECTs in April 2024

## SIGN UP PROCESS

Register your ECT with the Appropriate Body for their induction assessment programme

Whether an ECT is just starting their two-year induction programme or transferring from another school, they must be registered with an Appropriate Body by their school for their statutory assessment induction programme.

The role of the Appropriate Body is to:

- Register ECTs with the Teaching Regulation Agency
- Monitor the support Early Career Teachers receive
- Monitor assessment points

HISP Teaching School Hub is an Appropriate Body. Register your ECT with us via this link or scan the QR code:

## Register your ECT for an ECF Full Induction Training Programme

Does your school already have ECTs and work with HISP Teaching School Hub and Education Development Trust?

Log into the DfE website 'Manage training for ECTs' via <u>this link</u> and input the ECT, mentor and Induction Tutor details.

Schools must select whether the ECT is a new or transferring ECT, link an ECT to a mentor and sign them up to the correct cohort.

Schools will need each participants TRN and DOB to complete registration.

Once complete, the DfE performs validation checks and passes details to the Lead Provider, Education Development Trust who will then liaise with HSIP Teaching School Hub as its delivery partner.

EDT will issue log in details once these checks have taken place.
